```
"C:\Program Files\Firebird\Firebird_2_5\bin\gbak.exe" -b -v -t LOCALHOST:C:\DATA\DB.FDB  
F:\DATA\DB_NEW.FBK -user SYSDBA -password masterkey
```

Done with volume #1, "F:\DATA\DB\_NEW.FBK" Press return to reopen that file, or type a new name followed by return to open a different file. Name:
