The screenshot shows the Delphi 11 IDE interface. The main window displays the Object Inspector for 'Form33' (TForm33). The Properties tab is selected, showing various form properties like Ctl3D, Cursor, and Font. A context menu is open on the right side of the form, with the 'Add Control' option highlighted by a red circle. Other options in the menu include Quick-Design Form, Edit, Control, Quick Edit..., Quick Edit Icon..., Bind Visually..., Position, Flip Children, Tab Order..., Creation Order..., Hide Non-Visual Comp, Revert to Inherited, Add to Repository..., View as Text, and Text DFM.
