### Блокировки

В последние годы использование сервиса Cloudflare столкнулось с вызовами со стороны российских регуляторов, в частности Роскомнадзора. Например:

 [ixbt.com](#)  [news.rambler.ru](#)

- **Осенью 2024 года** Роскомнадзор начал выборочную фильтрацию сервисов Cloudflare из-за внедрения технологии TLS ECH (Encrypted Client Hello). Эта технология — средство обхода ограничений доступа к запрещённой в России информации, её использование нарушает российское законодательство.
- **В июне 2025 года** Роскомнадзор включил значительную часть IP-адресов Cloudflare в единый реестр запрещённых ресурсов и уведомил операторов связи о необходимости их фильтрации. С 9 июня крупные российские провайдеры — «Ростелеком», МТС, «Мегафон», «Вымпелком» и другие — начали ограничивать трафик, идущий к узлам Cloudflare.
