```
SELECT
  p.product_name,
  p.price,
  t.type_name AS type_name
FROM
  products AS p
INNER JOIN
  product_types AS t ON p.type_id = t.type_id;
```

Product_name Price type_name

(SQL: SET NOCOUNT ON; select p.product_name, p.price, t.type_name as type_name from products as p inner join product_types as t on p.type_id = t.type_id;)
