- b) Trace all connections of given user to database mydatabase.fdb
Log executed INSERT, UPDATE and DELETE statements, nested calls to procedures

and triggers and show corresponding PLAN's and performance statistics.

```
<database %[\V]mydatabase.fdb>  
enabled true  
include_filter (%(INSERT|UPDATE|DELETE))(  
log_statement_finish true  
log_procedure_finish true  
log_trigger_finish true  
print_plan true  
print_perf true  
time_threshold 0  
</database>
```

c) Trace connections and transactions in all databases except of security database

```
<database>  
enabled true  
log_connections true  
log_transactions true  
</database>
```

```
<database security2.fdb>  
enabled false  
</database>  
?
```
