I/O error during "lock" operation for file "/opt/db/employee.fdb"

```
while sleep 0.1; do echo | /opt/firebird/bin/isql -user SYSDBA -password test  
inet4://127.0.0.1//opt/db/employee.fdb; done
```

```
/opt/firebird/bin/nbackup -user SYSDBA -password test -backup 0 /opt/db/employee.fdb stdout >  
/dev/null
```

```
/opt/firebird/bin/isql -user SYSDBA -password test inet4://127.0.0.1//opt/db/employee.fdb
```

```
/opt/firebird/bin/nbackup -user SYSDBA -password test -backup 0
inet4://127.0.0.1//opt/db/employee.fdb stdout > /dev/null
[
PROBLEM ON "nbackup needs local access to database file".
SQLCODE:-999
]
```
