```
Python3.9
import tkinter as tk
root = tk.Tk()

frame=tk.Frame(root, borderwidth=2, relief="sunken")
root.title(«Frame Example»)

image = tk.Image(frame, file='Roza_1.png')
image.pack(pady=5)
root.mainloop()
```

```
from tkinter import PhotoImage, Label, Tk
root = Tk()
img = PhotoImage(file="Roza.png")
label = Label(root, image=img)
label.pack()
root.mainloop()
```
