Server misconfigured - to start it from (x)inetd add ServerMode=Classic to firebird.conf

```
const cwd = getFBAppDir();  
const fbpath = path.join(cwd, "firebird");  
const firebird = spawn(fbpath, [], { cwd });
```

```
const firebird = spawn('bash', ['-c', fbpath], { cwd });
```

```
AuthServer = Legacy_Auth  
AuthClient = Legacy_Auth  
UserManager = Legacy_UserManager  
DataTypeCompatibility = 2.5  
WireCrypt = Disabled
```
