The screenshot shows the 'Install a SQL Server 2017 update' wizard. The title bar reads 'Install a SQL Server 2017 update'. The main window has a title bar 'Select Features' and a subtitle 'Specify the features to update.'.

On the left side, there is a navigation pane with the following items: 'SQL Server 2017 update', 'License Terms', 'Select Features' (highlighted), 'Check Files In Use', 'Ready to update', 'Update Progress', and 'Complete'.

The main area is divided into three sections:

- Instances:** A tree view showing a tree structure for 'MSSQLSERVER'. Under 'MSSQLSERVER', there are three sub-items: 'Database Engine Services' (highlighted in blue), 'Shared Features', and 'Client Tools Connectivity'. Each item has an unchecked checkbox to its left.
- Description:** A text box containing the following text: 'A SQL Server update with a higher version has already been installed on SQL Server instance MSSQLSERVER, so the current SQL Server update cannot be applied. The version of the SQL Server update that is already installed is GDR 14.0.2060.1(14.0.3475.0) with a KBKB5042217 and the current SQL Server update is 14.0.3456.2 with a KBKB501688'.
- Configuration:** A series of input fields for: 'Language: English - United States', 'Edition: Standard', 'Patch Level: 14.0.2060.1', 'Architecture: x64', 'Service Pack: ', and 'Upgrade Status: Not applicable.'

At the bottom of the main area, there are two buttons: 'Select All' and 'Unselect All'.

At the bottom right of the window, there are three buttons: '< Back', 'Next >', and 'Cancel'.
